EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification

Page 1, line 10, after "May 2003," -- now U.S. 7,088,405 -- has been inserted.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 1-15, 17-39, 42 and 65 are allowed for the same reasons set forth in the last Office action.

Claim 43 is allowed over the prior art of record because none of the prior art discloses or suggests a transfective display device having the combination of the features "a structured translector disposed to the backside of the color display unit, the structured translector comprising a structured substrate having a structured surface and a dielectric partial reflector disposed on the structured surface" and "wherein the structured translector is shaped so that ambient light incident on the display unit in a glare direction is reflected by the structured translector reflected as image light over a range of directions substantially surrounding the glare direction". Claims 44-47, 49-58, 60-64, 66 and 67 are also allowed since they depend on claim 43.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Tai Duong at telephone number (571) 272-2291.

The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
